Additional Information

How is this data collected?	The data is extracted from the ePermits system powered by Cityworks. A script runs daily to export the data from the production database. The data is considered very reliable and is checked regularly by the data owners.
What does each record represent?	An application for a building permit that has not been issued
What are the limitations of the data?	Dataset does not contain issued building permits, trade applications, or trade permits. Some of this other data can be found in other datasets on the Open Data Portal. Data is not fully historical and only contains the last three years, rolling.
Additional comments:	None
